More business without borders

COMPANIES AND PRIVATE INDIVIDUALS

With specialisations in VAT, transfer pricing, IFRS and restructuring, the experts at Vandelanotte International can assist your company in all its international operations. You can also count on our international expertise on a more personal level. Indeed, our professional international employment, estate planning and relocation services guarantee you personal optimisation and complete peace of mind.

INVESTING ABROAD

Our team of specialists gladly assist with your cross-border operations or the establishment of a permanent facility, office or company abroad. Together we examine the requisite formalities and potential optimisations, such as international employment, withholding taxes and the streamlining of your group structure.

INVESTING IN BELGIUM

Our multidisciplinary team of specialists familiarises you with Belgian obligations and can provide operational guidance or support in the launch of your Belgian office or company. You may contact us with any questions pertaining to tax, legal, accounting and social matters, and we readily assist in the application of subsidies and your search for suitable personnel. We also take care of all local formalities and obligations, keeping your specific international circumstances firmly in mind.

REGIONAL ADVICE

Whilst crossing the border to one of our neighbouring countries is relatively simple, a number of key differences in terms of legislation still remain. With their country-specific expertise, our various regional desks (France, the Netherlands and Luxembourg) are on-hand to assist Belgian companies, foreign businesses and private individuals in their regional operations.

The Leading Edge Alliance is an international alliance of leading independent accountancy & consultancy firms. This alliance is the second largest international accountancy and audit association in the world and enjoys a presence in more than one hundred countries. Thanks to our long-standing personal cooperation with our international partner offices, we're able to offer you a truly global solution.

In a world in which globalisation plays an increasingly important role, international enterprise presents numerous challenges and opportunities. In order to succeed, it's crucial that you take the interaction between the various international and local regulations sufficiently into account.

Vandelanotte International's in-depth knowledge and expertise enables you to focus on those many opportunities with complete peace of mind. Our team of specialists dedicates itself to ensuring that your international operations consistently perform at optimum levels. We provide expert advice on tax, legal, accounting and social affairs to Belgian companies, foreign businesses and private individuals alike.
